Whereas, under the provisions of the Prairie Farm Assistance Act 1939, seller of all grains has deducted from the sale 1 percent for the purpose of establishing an insurance against drought, pests and other crop failures.

And Whereas, the said act only provides for award made to bonus area in townships, and it is very unfair to farmers who have had crop loss, but the township does not establish the determined yield.

And Whereas, certain farmers through crop loss are forced by circumstances to apply for relief to the Municipal Districts and said

districts are forced to increase taxation for such relief purposes, and it is an added burden to the ratepayers by increased taxation in addition to the 1 percent deductions.

Be it resolved that consideration be given to that portion of township 44 range 9 and range 8 W. 1/4, which is adjacent to township 43 which suffered hail damage by the same storm and same has been declared a bonus area. That this resolution be forwarded to the Minister of Agriculture asking him to give this matter his personal and immediate attention so that these farmers may receive a bonus without being included in any total township area.

Moved by Mr. Blakely that the account with the University of Alberta Hospital re A. Kneely for \$219.65 be paid at \$200.00 and that a letter be sent with said cheque setting out the provisions of the Municipal Districts and Hospitals Act regarding this deduction. **Ord.**

## Trends In Tourist Traffic

Official figures are now being published making it possible to get some appreciation of the trends of tourist traffic from the United States into Canada and to gain some idea of the influence exerted by the war on this important industry.

Entirely the result of regulations promulgated by the Dominion government, the very heavy flow of Canadian pleasure seekers into the United States during the holiday months of the past three or four years was cut to a mere trickle during the summer just past. This is a matter of gratification, since this marked reduction in the southward movement of Canadians has had the intended effect of retaining in this country large sums of money which are required for the prosecution of Canada's war effort in some form or another.

Unfortunately, on the other hand, the inward flow of American tourist traffic over the Dominion as a whole is not as great as might have been expected under existing conditions. During the past few years American tourist traffic into this country has been increasing substantially year by year until it had assumed the rank of one of the foremost industries of Canada.

There were a number of reasons why the annual increment of this traffic should not only have been maintained but should have shown a material increase, because of the war. In the first place, holiday seekers in the United States were practically confined to this continent for their pleasure trips this summer on account of the war and in the second place their dollar being worth \$1.10 in this country would have given them a cheaper holiday than they could enjoy by remaining in their own country. These two factors alone should have resulted in a record north-bound traffic across the international boundary during the summer just past.

### A Serious Slump

Instead of this anticipated increase materializing, however, the reverse was the case, at any rate during the early part of the summer. The October issue of the National Revenue Review, issued by the Minister of National Revenue, reveals that, in July, the latest month for which figures for the entire Dominion were reported at that time, only 452,307 American automobiles entered Canada under short or long term permits as compared with 764,408 in the corresponding month of last year, a decline of nearly 41 per cent.

Unfortunately, figures for August for the entire Dominion were not apparently compiled at that time but in the same issue of the National Revenue Review, it is reported that in August, 1940, 94,526 cars originating in the U.S.A. passed through the Port of Niagara Falls, compared with 109,679 in August, 1939, a decrease of 14,553 cars, or over 13 per cent. Since this is one of the heaviest ports of entry in the Dominion, it can be assumed that for the entire country some improvement was shown in August as compared with the previous month, but still a substantial loss.

In another article in the same issue of the National Revenue Review figures are given showing a substantial increase in the number of visitors to Canada's national parks in the Rockies and prairie provinces during the five months of this year ending Aug. 31. In most cases the figures combine Canadian and "foreign" visitors, but the mountain parks of Banff, Jasper, Waterton Lakes, Kootenay and Yoho were visited during the period by 110,874 "foreign" visitors compared with 90,365 last year, a gain of more than 22 per cent. This increased movement of visitors from other countries to the parks is attributed in part by the Review to "the opening to traffic this year of the Big Bend and Banff-Jasper Highways and to the fact that many Americans who have been accustomed to holidaying in Europe spent their vacations in the Canadian Rockies."

### Good Roads Important

The importance of good roads in fostering this "golden" stream into Canada is further emphasized by the statement accompanying the National Revenue Review's announcement that "An all time record was created at Jasper National Park, when the attendance (for the five month period) reached 80,304, an increase of 60,668" or more than 200 per cent. "This astounding increase," declares the publication, "was largely due to the opening of the new Banff-Jasper Highway, which shortens the distance between the resorts of Banff and Jasper to 186 miles from the 511-mile drive required by previous motor routes."

The foregoing facts and figures, taken in combination, reveal two or three important things which might profitably be noted for future guidance. One of these is evidence that publicity undertaken by the federal government in the United States this summer to counteract adverse propaganda across the line was too late to reassure Americans that they could safely visit this country while at war without being penalized in one or more of several forms. This propaganda on the other side of the international boundary bore beneficial fruit during July, one of the best of the holiday months and had not been fully stemmed by the end of August, by which time the season was near its close.

Another is the importance of the construction and maintenance of good roads if Canada is not only not to lose this vital and important industry, but is to reap increasing annual benefits from it.

### Great Help To Britain

#### Dutch Pilots Get Valuable Information About Nazi Moves

Of great assistance to the British intelligence service in learning the facts about the German invasion fleet are the Dutch fliers. At the dead of night they fly to their own country, land at a secret airfield, then proceed around the coast for information about enemy activities. Their knowledge of the German language has made it fairly easy for them to supply invaluable facts to the British bombing squadrons which recently wrecked the Nazi invasion fleet even before it had a chance to get out of the French channel ports.

We can hardly restrain our impatience to hear Hitler explain how the Japanese came to be a "pure Aryan" race.

#### True Frenchman Put One Over On Nazi Guards

While a Nazi guard stood by, a group of French officers placed a wreath on the Tomb of the Unknown Soldier at the Arch of Triumph in Paris. For the next three days thousands of French people visited the Tomb. The Nazis thought it strange that so many should come so suddenly, but dismissed the occurrence as a coincidence.

On the third day a member of the Nazi Gestapo examined the wreath. He found a card, which said: "Death to Hitler! Down with the scoundrel! France will live!"

The wreath was removed at once. Ever since, the Gestapo has been trying to find the true Frenchmen, who placed the wreath on the Tomb—Windsor Star.

### Big For Shrapnel

Commuters returning from London each evening to their homes in the country are beset, as they get off the train, these days by hordes of youngsters who ask: "Can you spare us a bit of shrapnel, Mister?"

### People Of Old London

#### Editorial In Daily Sketch Pays Tribute To Their Fortitude

The London Daily Sketch in a recent editorial voices movingly the debt of the rest of the Empire to the people of London. It says: "To-day in quietness and humility let us give thankful praise to the people of London. For they are enduring the fire and the torture for us. Upon their minds and bodies they are bearing such assaults as no citizen in these islands has borne before."

This they are doing freely, faithfully, with sublime fortitude—that we may live our way of life; that the dignity of man and freedom and tolerance, and the good, sweet, simple things shall not perish from the earth.

"In one heroic classless brotherhood, rich, poor, young, old, they are facing the molten blast from the skies with a spirit which no intimidation can assail nor horror overcome. Their indomitable will to suffer even unto death before bowing to any force or tyranny is our shield. They will not falter."

"There is a heroism which outlasts the forces of evil, which outlasts time itself."

"There is no courage of the heat and temper of battle. These ordinary people have not been prepared in long months of discipline. There is the self-discipline of the strong in spirit and the brave in heart."

"And upon this immovable rock will the weapons of evil finally be shattered."

"Think, then, of our brothers and sisters of the City of London to-day. Give them the nourishment of your love and thankfulness, for spirit will strengthen spirit and your prayers and thoughts will be as a bulwark around them."

"They offer their lives as a ransom for our liberty."

"Let us be worthy of this gift—for 'Greater love hath no man.'"

### Catalogued As New Art

#### Work Of Farm Woman Has Been Recognized In New York

In 1936 Anna Mary Robertson Moses, then 76, exhibited strawberry jam and paintings at the Cambridge, N.Y., fair.

"For my strawberries," as Mrs. Moses puts it, "I won a blue ribbon. For my paintings I got the 'razzberry.' To-day 34 products of her brush hang in New York exhibition galleries, bringing in as high as \$200 apiece."

Discovered last year, New York called her work Americana and gave it a prominent place in the museum of modern art. It was catalogued as primitive American art—pictures of farm turkeys headed for Thanksgiving, maple sugar in the making and covered bridges afloat.

The slender grey-haired farm woman took to art to rest her back. Widowed 13 years ago, she carried on her husband's farm at Eagle Bridge until her back began to hurt. She was forced to rest and while resting she "just had to do something."

Beaverboard substituted for canvas. The attic provided the frames. A mail order service provided the paints and Mrs. Moses the imagination.

With all the lady of Eagle Bridge is unimpressed. She's not going to New York. She's never been before and she's not going now, paintings or no paintings.

### Lasted For Twenty Years

#### Death Of One Player Brought Chess Match To End

A chess match which lasted for 20 years has been brought to an end by the death of Mrs. Annie Paton, of Rhyl, England. She was 93. Since 1920 Mrs. Paton had corresponded weekly with her 50-year-old nephew, Hugh Paton Harrison, of Hartlepool. And their boards have shown one move a week, year in, year out. The matches were always hotly contested, but Mrs. Paton invariably won in the end. "I've been playing chess 40 years longer than Hugh has."

London's monuments are the work of the ages. Art lovers the world over will never forgive the Nazis for destroying these irreplaceable gems.

### Chivalry In The Air

#### Some German Flyers Are Decent Enough To Observe It

The Ottawa correspondent of the Ottawa Journal says:

Take it by and large there was precious little chivalry even in the last war. There certainly seems to be much less in this one. Yet the airmen, who had their strong code of honor last time, still strive to maintain some semblance of the old tradition. For instance, if there is a dog-fight in the air, and one fighter finds his machine hors de combat, he intimates his condition, and his intentions to get down to earth and land, by making his machine do a tail-waggle.

Only a short time ago, after a brief, bright, and brotherly scrap over the South Coast, a German fighter gave this signal, and came down, his R.A.F. opponent promptly following fire to let him land safely if he could. On the other, if an R.A.F. fighter in the course of a dog-fight makes his enemy crash, or shoots down a bomber, supposing that circumstances permit, he punctiliously flies over the stricken wreckage and salutes it with a wing-roll.

How far German airmen reciprocate these courtesies of the empyrean arena it is hard to say. Such niceties would scarcely appeal to baby-killers. Yet there are some who do. Even in this mechanized epoch, the ghost of ancient chivalry dies hard.

### History Being Repeated

#### Sermon Preached Century Ago Might Apply To Present Time

Be not deceived—there will be no wall of adamant, no triple flaming sword to drive off those lawless assassins that have murdered and pillaged in every other land. Heaven has made with us no covenant that there should be joy and peace here, and weeping and lamentation in all the world besides.

I would counsel you to put on a mind of patient suffering, and noble acting; whatever energies there are in the human mind, you will want them all; every man will be tried to the very springs of his heart, and those times are at hand which will show us all as we really are, with the genuine stamp and value, be it much or be it little, which Nature has impressed upon every living soul.—Rev. Sidney Smith. (Words taken from a sermon on "Invasion," spoken a century ago.)

#### A Scots Special

When a C.N.R. freight recently pulled into Kamack from Dauphin, Man., it was discovered that the entire train crew were "Macs" and that all of them started life in Glenagarry, Ont. McKeever and McNabb were on duty in the locomotive cab; McLean was conductor and in the caboose were also McFarlane, McLean and McDougall. A real Scots special.

### Where Traitors Triumph

#### Belgian Workers Have Hard Time Under Task Masters

Belgian workers have now the choice between the most wretched and unassisted unemployment, or working for the Nazis against their own country. If they choose the latter course, they have 25 per cent. of their miserable wages deducted for the building up of a system of social insurance after the Nazi model. Their own organizations are broken up, their best leaders exiled or condemned to silence. All rights and liberties have gone to be replaced by an authoritarian discipline under the foreign occupation.

A whole nation lives in constant fear of spies and informers, while traitors triumph under the protection of the invader.—By Max Buset, Belgian Labor Leader.

### Not What He Expected

R.A.F. fighter pilots stationed in Scotland are laughing over a colleague who recently went to London on leave and bought a motor-car. He arranged for it to be carried on the train by which he was returning to his airfield. On arrival at the station he summoned a porter to open the van so that he could drive his car away. The door was opened—and out walked a horse.

### An Artist Abroad

#### Lieutenant From Vancouver Makes Humorous Sketches Depicting Life In England

Unofficial artist at Canadian G.H.Q. in England is Second Lieutenant Sedley Sweeney from North Vancouver, a graduate of the Royal Military College, whose humorous sketches decorate the walls of the officers' mess.

Mr. Sweeney has turned out a sequence of sketches illustrating the trials and tribulations of daily living for Canadians in the English wilderness under wartime blackout conditions.

The first drawing shows a camp-bound Canuck asking a yokel for directions. He continues on the road only to find—second sketch—that he has arrived at a "No Entry" road.

The next scene shows the luckless Canuck at a crossroads. Direction posts point three ways, giving the mileage to each town, but the names of the townships have all been carefully obliterated.

For more than 600 years, only two foods and two drinks have been sold by The Bratwurstglocklein, famous restaurant in Nuremberg, Germany: wine and beer, sauerkraut and sausage.
